

3X Software News

Spring 2009

3X Software is the UK's leading provider of Credit/Debit/Purchasing card payment and address management software for the iSeries

Welcome to our *Special Edition* Newsletter

Welcome to our special edition (or should it be addition?) newsletter. We like to keep you all up to date with that is happening at 3X Software. It looks like it is going to be a tough year all round for everybody this year so a great opportunity to get the most out of your current systems, getting them to work smarter for you rather than replacing them. We have taken the opportunity of buying a complementary business so that we can offer you even more great solutions in other areas of your business at very competitive prices.

3X Software are pleased to announce the acquisition of Internet Services company Karova

We are pleased to announce that we have acquired the business of Karova. This enables us to offer you a wider choice of Internet products and services. Karova was established in 2003 and is a growing business that creates leading-edge accessible IT and e-commerce solutions for a wide range of clients, large and small, who want to deliver the very best online experiences to their customers.

Specialising in accessibility and standards compliance, Karova offers complete end-to-end web solutions including [web site hosting](#) and [e-commerce software](#). Karova also enables charities to collect donations via a number of payment methods through its specialist [donation management solutions](#).

Karova has a progressive attitude toward design and development, embracing and utilising the wealth of ever-evolving technologies and standards our industry has to offer. The team is vibrant and communicative, with a proactive and fully supportive approach to customer service.

What's more, Karova employees have extensive experience and expertise in e-commerce and payments, so we're able to offer expert guidance when it comes to increasing the ROI of your e-commerce site.

We are thrilled that these two companies can merge together, the synergies between the companies will enable us to offer better and improved services to both sets of customers. The additional skills we can offer now include; C#, Python, ASP, .NET, SQL, MySQL, SQL Server, XHTML, XSLT, CSS & Java Script.

Karova will continue to be the trading name of the e-commerce business. All the staff from Karova have transferred to 3X Software.
